

CastleQuest™ Discovery Maps

CastleQuest Discovery Maps are unique developed by Waters Edge.

Each CastleQuest Discovery Map is designed to enable organizations to visualize complex projects and navigate toward successful governance of their information.

CastleQuest Discovery Maps are invaluable for collaboration, issue spotting and project planning. Additional in-depth analysis is presented through live and on-demand CastleQuest Briefings available online at Waters Edge.

Attend an In-Depth CastleQuest Briefing

powered by **webex**

How can a CIO engage a SaaS vendor and preserve compliance with all applicable rules?

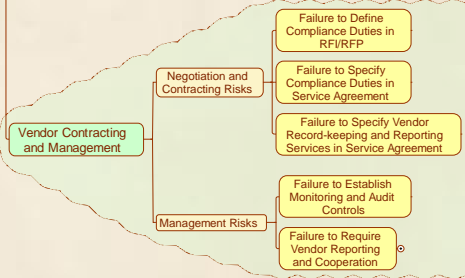

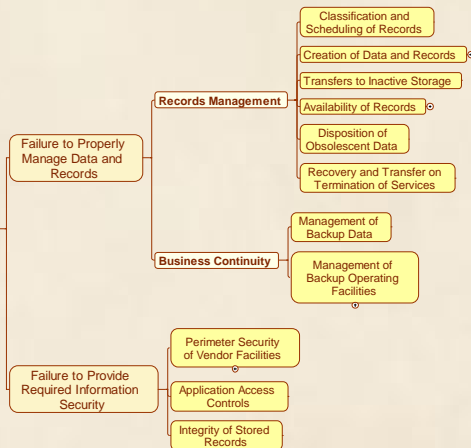

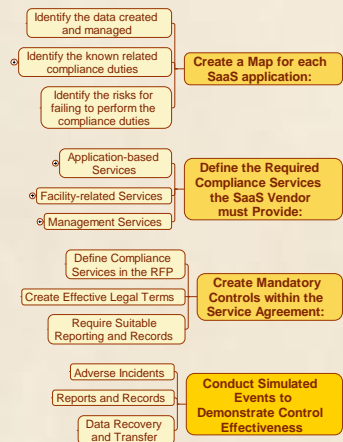

What are the Compliance Risks for SaaS?

Software as a Service—Navigating the Compliance Whirlpools

What are useful strategies for managing SaaS compliance risks?

Shifting to Vendor Responsibilities for Compliance Duties

Vendor Contracting and Management

All of these risks place stress on the critical need for the SaaS customer to demonstrate and document that compliance has been achieved!
