**agility** |ə'jɪlɪtē| *noun* An ability to move quickly and easily : *Ruth had the agility of a monkey* **figurative** *his vague manner concealed the agility of his mind.*

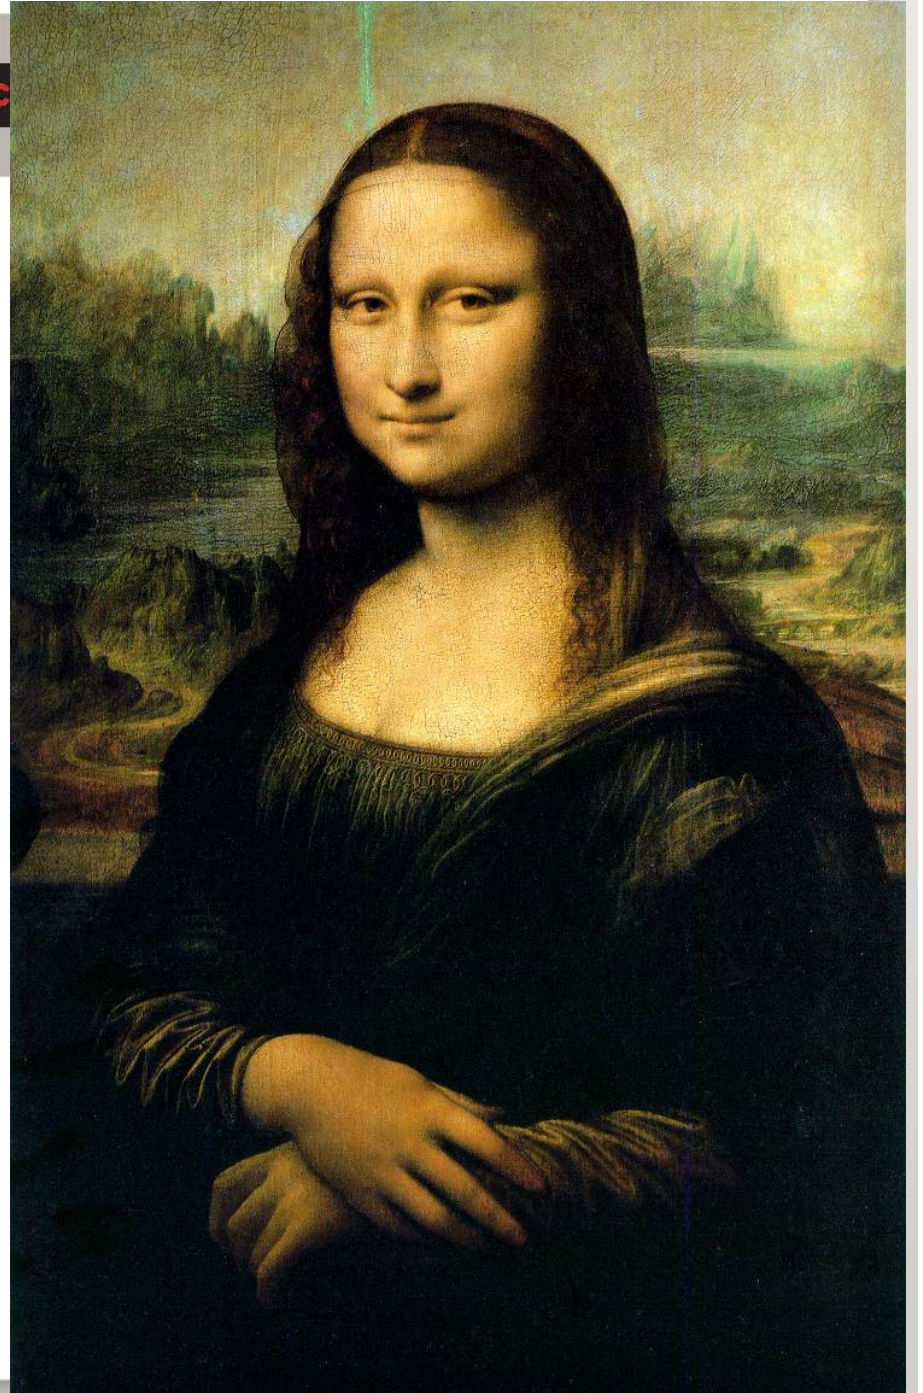

ORIGIN late Middle English : via French from Latin ***agilis***, from ***agere*** 'to do'.

agility

it's a good

thing

# The Big Picture

Agility  
Required  
To

Agility  
Required  
To

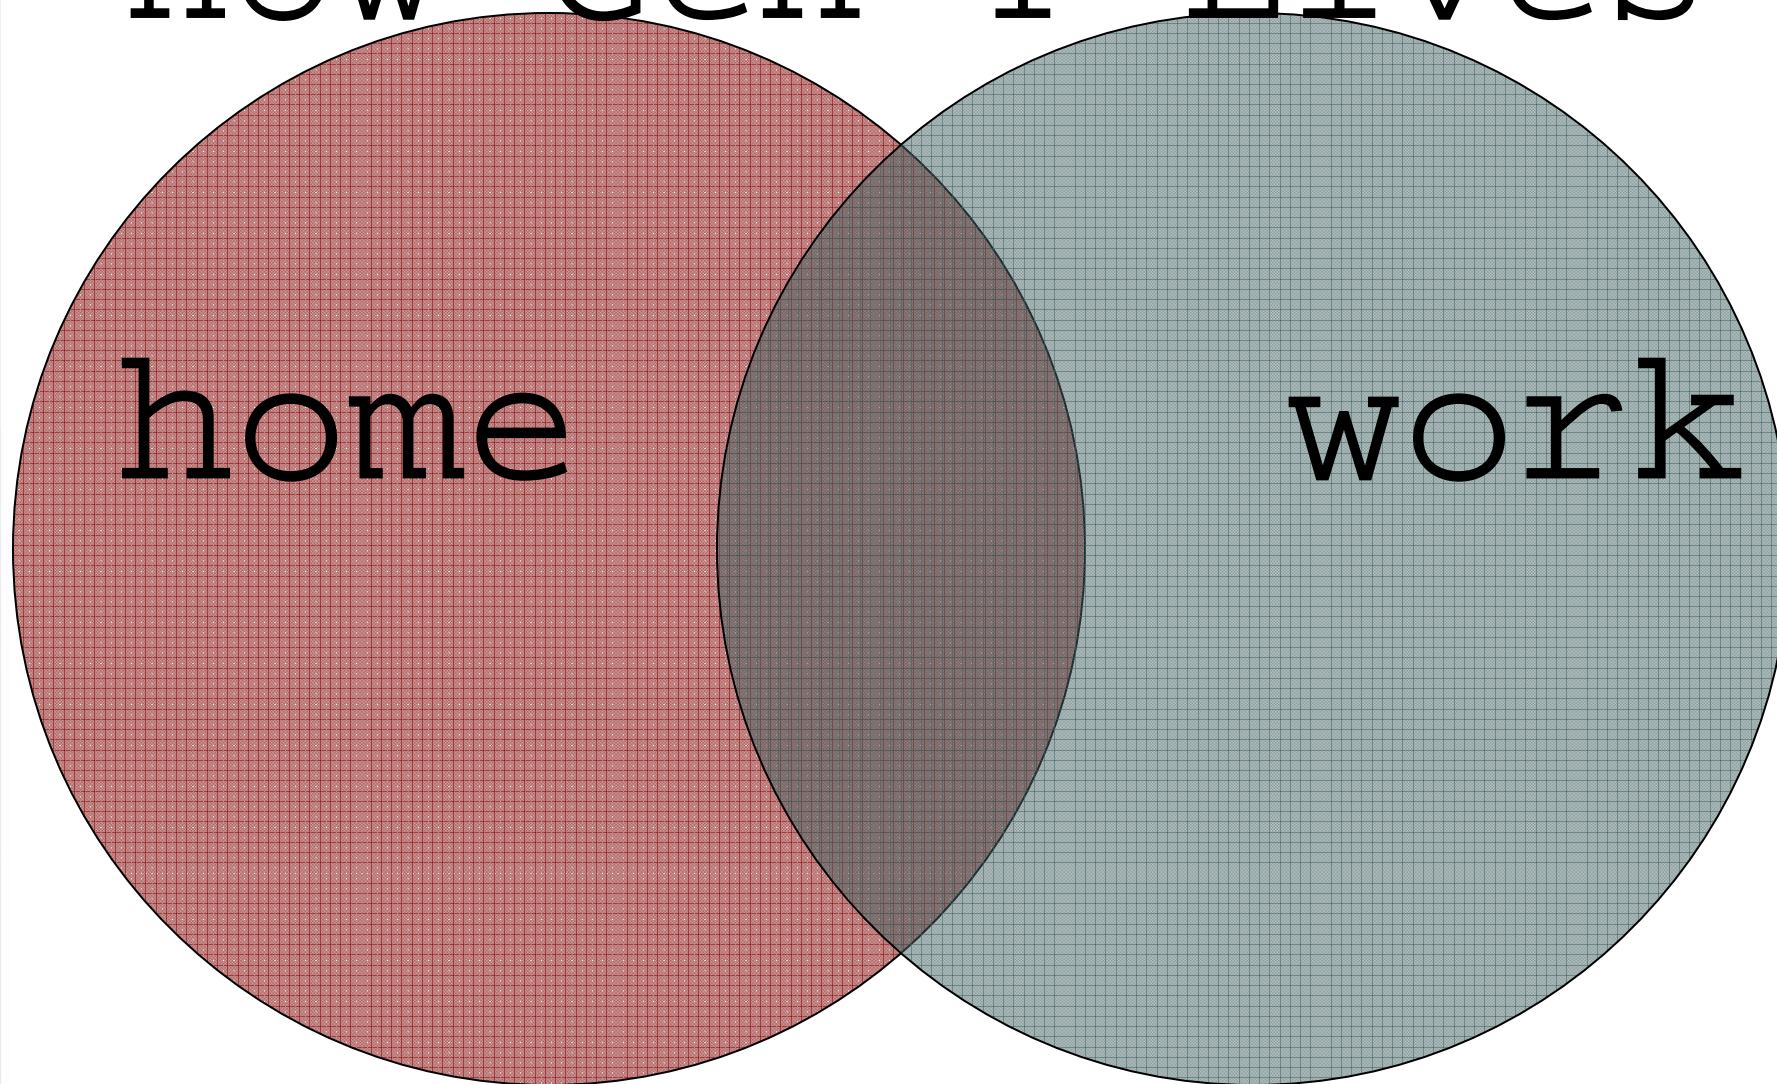

**Thrive**

**Survive**

It is more  
important to be  
innovative

than  
it is to be  
efficient
